

Question 5: Execution of uptime, date, and mv Commands

CODE / COMMANDS

```
uptime
date
mv notes.txt renamed_notes.txt
ls
uptime to check system uptime and load average
date to display the current system date and time
mv notes.txt renamed_notes.txt to rename a file
```

OUTPUT SCREENSHOT

A terminal window titled "OUTPUT - Experiment 5" showing the execution of several commands. The prompt is kali@kali:~/lab_files\$. The commands and their outputs are: uptime (11:15:02 up 2:14, 1 user, load average: 0.12, 0.09, 0.05), date (Mon Aug 3 11:15:07 IST 2026), mv notes.txt renamed_notes.txt (no output), and ls (renamed_notes.txt).

```
kali@kali:~/lab_files$ uptime
11:15:02 up 2:14, 1 user, load average: 0.12, 0.09, 0.05
kali@kali:~/lab_files$ date
Mon Aug 3 11:15:07 IST 2026
kali@kali:~/lab_files$ mv notes.txt renamed_notes.txt
kali@kali:~/lab_files$ ls
renamed_notes.txt
```
